PROFESSIONAL SUMMARY

Computer Science undergraduate with a strong foundation in Data Structures and Algorithms and backend development using Go. Skilled in building secure REST APIs, authentication systems, and database-driven applications using MySQL, JWT, and Docker. Passionate about solving complex problems through clean, efficient code and eager to contribute to scalable backend systems while continuously learning new technologies.

EDUCATION

DIT University (Dehradun) Aug 2023 - May 2027
Bachelor of Technology in Computer Science CGPA: 8.3/10
Student Member, IEEE

DOMAIN / TECHNICAL SKILLS

Languages: Go (Golang), Java
Backend & APIs: REST APIs, HTTP Servers, JSON, CRUD, Concurrent Systems (Goroutines, Channels), JWT Auth
Databases: MySQL — CRUD Operations, Joins, Indexing, Aggregation, Database Design
CS Fundamentals: Data Structures & Algorithms, OOPs, DBMS, Operating Systems, Computer Networks
Online Programming Profile: LeetCode and GeeksForGeeks

PROJECTS

Real-Time Chat Backend (Go, WebSockets, MySQL) View on GitHub

- Developed a real-time messaging application with user authentication, one-to-one chat, and message retrieval using Go and WebSockets.
- Implemented secure REST APIs with JWT authentication and middleware for protected routes.
- Integrated an AI chatbot using the Groq API, enabling users to interact with an AI assistant directly within the application.
  https://resonant-alpaca-06f155.netlify.app/

Resume Parser (Go, PDF Parsing, LLM, REST API) View on GitHub

- Built a CLI resume parser in Go that extracts structured data (name, contact, skills, education, experience) from plaintext and PDF resumes using NVIDIA's hosted LLM inference API to generate structured resume data.
- Outputs clean JSON for downstream processing, demonstrating data transformation and parsing skills.

User Authentication Service (Go, Gorilla Mux, MySQL, JWT) View on GitHub

- Built a RESTful auth service in Go (Gorilla Mux) with JWT-based sessions and bcrypt password hashing.
- Designed registration, login, and profile endpoints backed by MySQL, with custom JWT middleware and CORS support.

CERTIFICATIONS

- Oracle Certified AI Foundation Associate [Certificate]
- Deloitte Australia — Technology Job Simulation (Forage) [Certificate]
- Database Essentials — Coursera [Certificate]
- Linux Fundamentals — Coursera [Certificate]

AWARDS & HONORS

- University Scholarship for Academic Excellence — DIT University
- LeetCode: Achieved a 1530+ contest rating in contest 456 weekly contest
