Professional Summary

Dedicated Computer Science student with a solid foundation in Java, Kotlin, C, and SQL, complemented by expertise in Android Development and problem-solving. Proven ability to translate concepts into functional applications, including a Bank App and Sudoku Solver. Seeking a challenging Software Engineer role to apply strong technical skills and drive innovation.

Education

DIT UNIVERSITY, B.Tech in Computer Science (AIML Robotics) Aug 2023 - May 2027

- Current CGPA: 8.56 /10
- Professional Memberships / Student Organizations: Student Member, IEEE

Skills

- **Programming Languages:** Java, Kotlin, C, SQL
- **Computer Science Fundamentals:** Data Structures Algorithms (Java), Problem Solving
- **Mobile Development Frame Work:** Native: Android SDK (Kotlin)

Projects

Bank App

- Developed an Android Bank App simulating core banking operations (account creation, balance inquiry, deposit, withdrawal) with secure user authentication and an intuitive UI.
- Practiced database management and transaction logic in Kotlin and Android Studio.
- github.com/Anuragjha0936/Bankapp
- Tools Used: KOTLIN, ANDROID STUDIO

Sudoku Solver (Java Project)

- Developed a command-line Sudoku Solver in Java, implementing backtracking algorithms for varying difficulty, focusing on efficient problem-solving and code optimization.
- github.com/Anuragjha0936/SudokuSolver/blob/main/sudoku.java
- Tools Used: JAVA, INTELLIJ IDEA

Unit Converter App

- Built an Android application for unit conversion (length) with a simple, user-friendly interface.
- github.com/Anuragjha0936/UnitConverter
- Tools Used: KOTLIN, ANDROID STUDIO

Certification

- *Completion Certificate of Database Essentials.*
- View Certificate on LinkedIn - Database Essentials Cert
- *Completion Certificate of Linux Fundamentals*
  View Certificate on LinkedIn - Linux Fundamentals Cert

Awards and Honors

- University Scholarship for Academic Excellence at DIT University
